

Advantages

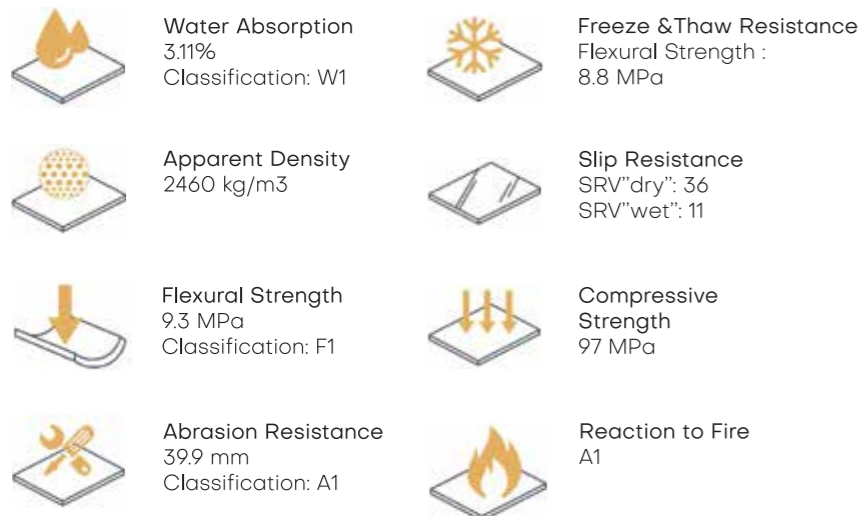

Precast terrazzo from Terrazzo Malaysia are made through mixing the binding material and marble chips in a block mold and compressed by hydraulic press machine, waiting 28 days to be solidified. The terrazzo block is later cut into a standard slab size with 18mm or 20mm thickness. It is homogeneous yet durable against wear and tear.

Dimensions

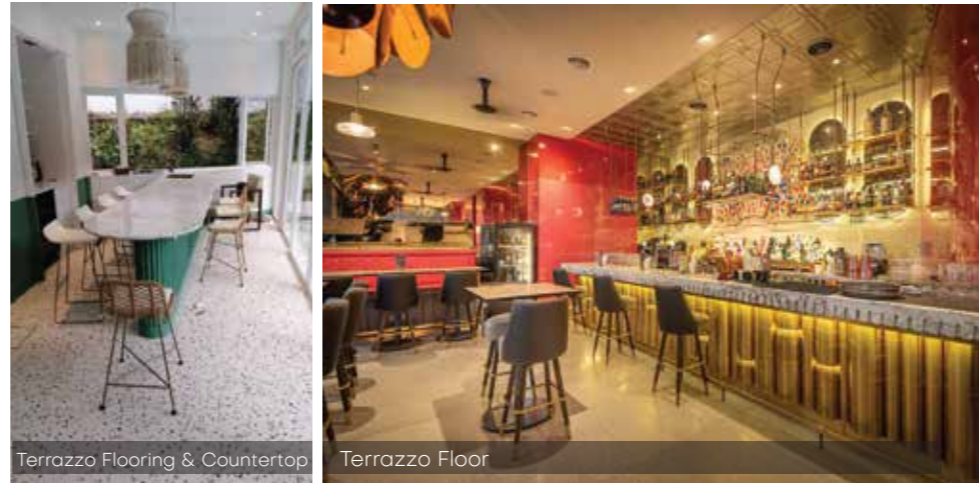

Terrazzo slab can be cut to required size.

Specifications

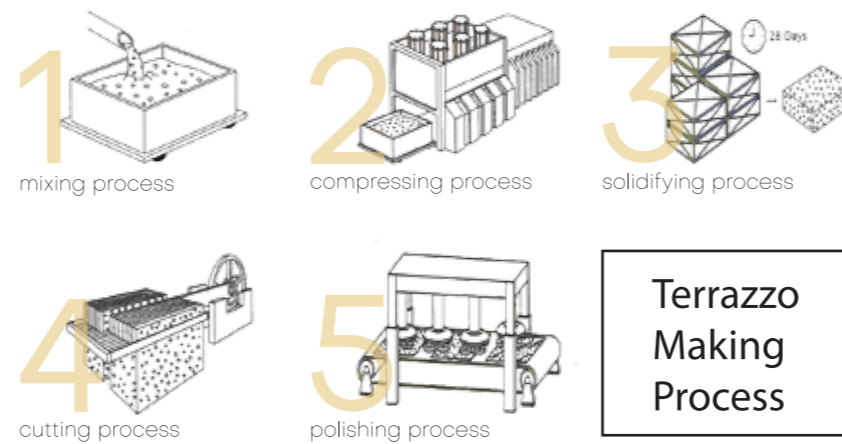

Intro

Terrazzo Malaysia was founded under Marble Emporium Sdn Bhd that established in 2005. Our objective is to promote terrazzo as a sustainable material to the public for its durability, flexibility and timeless design. Terrazzo Malaysia specializes in providing extra large terrazzo slab to maximise its possibility of ultimate design.

Terrazzo from Terrazzo Malaysia is made with natural ingredients that is environmental friendly. It is a perfect combination of natural stone chips, glasses, cement and water.

A homogeneous terrazzo comes with 20mm thickness, surface available to be polished, honed and leathered based on different requirements. It can be applied for flooring, wall treatment, countertop, tabletop and any other furniture surfaces to enhance the overall design.
